## ANALYSIS RESULT/S:

| <u>ANALYSIS</u> | <u>SAMPLE ID</u> | <u>SULPHUR</u> | <u>CALCIUM</u> | <u>SODIUM</u> | <u>GYPSUM</u> |
|-----------------|------------------|----------------|----------------|---------------|---------------|
| Gypsum          | Albacutya Gypsum | 16.40%         | 20.54%         | 0.040%        | 88.17%        |
| Gypsum          | Albacutya Gypsum | 16.20%         | 20.29%         | 0.020%        | 87.10%        |
| Gypsum          | Albacutya Gypsum | 15.10%         | 18.92%         | 0.030%        | 81.18%        |
| Operator:       | Mike             |                |                |               |               |
| Calibration:    | CaSO4            |                |                |               |               |

The Calcium result is theoretical based on the Sulphur in the Calcium Sulphate (Gypsum)
